Our baby mats and floor mats are not only popular in China but also exported to more than 30 countries, such as North America, Europe, South America, Australia, Africa, Southeast Asia and so on.

Our products are widely used, Our client base spans across Department store field, Home furnishing area, Advertising field, Mother and infant field industries worldwide. Excellent quality and perfect after-sales service system make our Jietai selected by many important places at home and abroad.

Market-oriented, Customer-centered, Talent-based, Quality-based premise is our business tenet. More than 11 year's experience in this field, We are committed to doing our best to develop and manufacture products that are with valuable babies' growth. We control the quality and safety of each process from the base material production. All our baby mats are Tested to EN-71 European Safety Standards and ASTM F963 America Safety Standards. These extreme standards have kept us competitive for over ten years in the market. At the same time, it also helps customers keep ahead of their peers and remain invincible.

We are willing to work with people from all walks of life in the community proudly to form a business community, win-win cooperation and sincere concern for each other. Extend the territory of ideas and aspirations to a wider realm.

Baby play mat are made of eco-friendly materials that takes good care of the baby's safe.

0 to 9 months old

In the baby crawling stage, the soft buffer function of Jietai baby mat can effectively protect the baby's wrist and knee.

9 months to 2 years old

During the walking stage, Jietai baby mat can provide a stable but cushioned surface for babies' first steps.

2 to 4 years old

When the baby plays with toys, Jietai baby mat provides a comfortable and safe environment for active play. Educational patterns can make children familiar with letters and numbers and stimulate their imagination.

4 to 7 years old

This is the children's jumping stage. Jietai mat can reduce the noise, and the surface anti-skid design can prevent the baby from falling.
